

ENGAGE EXCITE EXCEL ENHANCE EXPERT

ARCHITECTURE, DESIGN & ENGINEERING

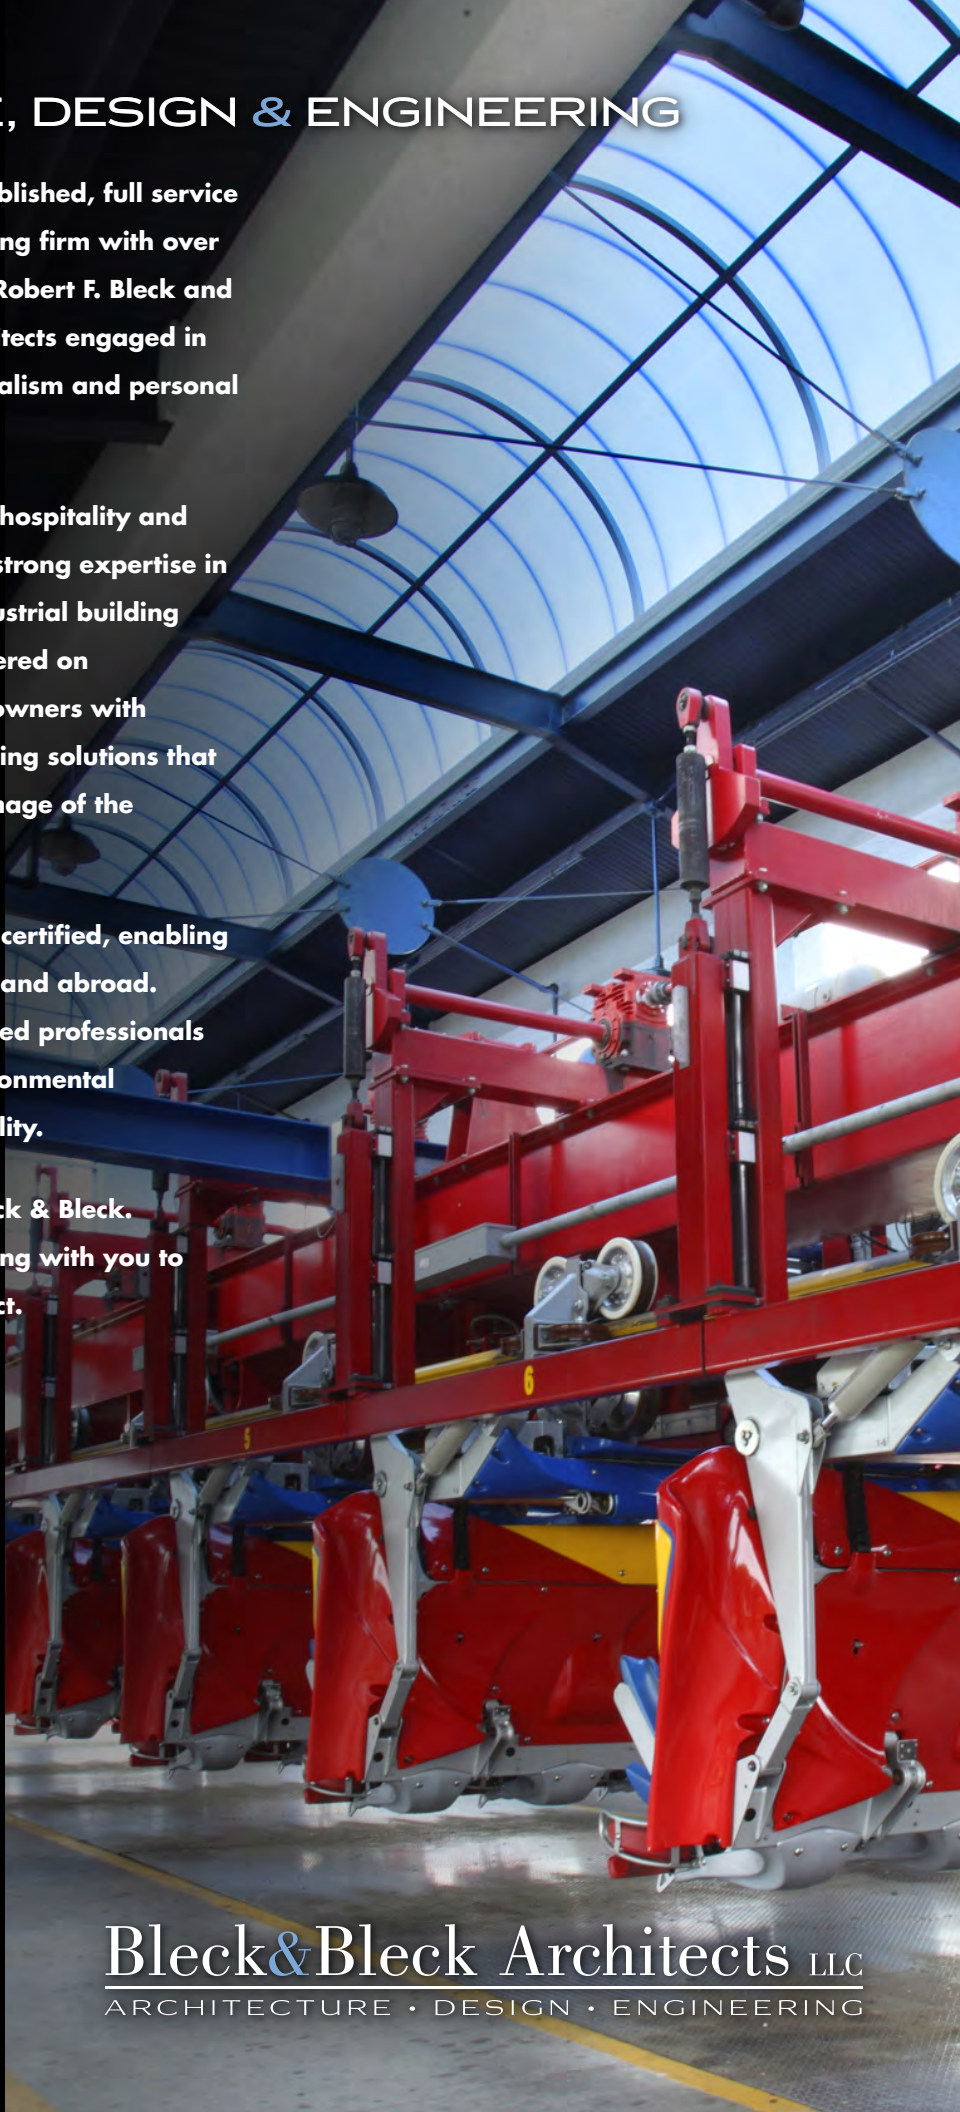

Bleck & Bleck Architects is an established, full service architecture, design and engineering firm with over 50 years of experience. Partners Robert F. Bleck and Charles D. Bleck are licensed architects engaged in every project, assuring professionalism and personal service to every engagement.

Our firm specializes in restaurant-hospitality and theme park ride integration with strong expertise in commercial, institutional, and industrial building projects. Everything we do is centered on providing business and property owners with creative architecture and engineering solutions that enhance the value, quality, and image of the built environment.

Bleck & Bleck Architects is NCARB certified, enabling us to practice throughout the USA and abroad. We are also USGBC LEED® Accredited professionals ensuring our commitment to environmental stewardship and social responsibility.

Thank you for your interest in Bleck & Bleck. We would very much enjoy working with you to realize the potential of your project.

LET'S ENHANCE

Our process begins by understanding our client's business, brand, and position. We work closely with our clients to develop project strategies in keeping with their goals. In implementing these strategies, we are involved through all phases of each assignment in representing, advising, and consulting with our clients. Our hands-on approach and motivation to bring the best possible service to our clients, results in designs of quality and value that meet client objectives.

We have been privileged to partner with large brands as well as local clients in the creation of beautiful spaces. Each project is seen as a unique opportunity to provide solutions that unite art and science to create structures that improve the way we live, work, and play.
